

## **NEW YEAR MESSAGE**

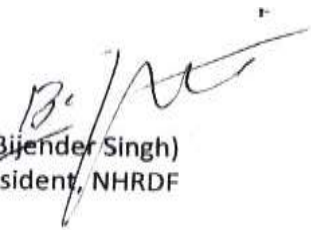

‘Wish you all a Very Happy and Prosperous New Year – 2020.’

The end of a year brings the opportunity of new beginnings and fresh starts, new resolutions and clearer thoughts. Clearly, we had uncertain and volatile moments in achieving our seed production & distribution targets in the year gone by. Let us forget the failures of yesterday, get ready for a new beginning that brings happiness and joy for all of us. As I look ahead at our shared future, I would like to renew my commitment to work ceaselessly for the growth and betterment of the Organization.

I have had many opportunities to hear about our work, often highly evaluated, and the high expectations from us, which convinces me that our potential is extremely high. Of course, we must not be over confident, but I ask that you recognize well our great strengths and do your job with pride and confidence. The NHRDF is reckoned internationally as a reputed Organization working in Onion & Garlic research & development. All this has been possible only because of devotion, hard work, team spirit and diligent approach of you all. I take this opportunity to acknowledge and thank each one of you for the past glory. I sincerely look forward to the year 2020 and assure you of my fullest support and co-operation in all endeavors.

**May the New Year bring cheers, happiness, peace and prosperity  
to you and your family**

**Jai Hind**

  
(Dr. Bijender Singh)  
President, NHRDF

**Dated: 01<sup>st</sup> January 2020**
